Workshop: Didactic activity with the purpose of inclusion of students with dyslexia

Objectives:

- Familiarizing teachers with the specifics of the manifestations presented by students with dyslexia for an adequate reporting of their needs
- Application of appropriate educational intervantional methods in a school context that allows the adaptation of the didactic approach to the needs of the students with dyslexia.
- Building connection between different categories of educational staff to achieve an exchange of relevant practices for supporting the dyslexic student;
- Increasing the resilience of teachers who are not specialist in carrying out activities with students with dyslexia.

Qualitative results:

Formation of effective collaborative relationships between the members of the teaching staff for carrying out activities with students having dyslexia.

Quantitative results:

- Examples of best practices for carrying out effective didactic activities with students having dyslexia;
- Activity evaluation questionnaire
- 12 participants to the workshop

Thematic content of the activity:

- The concept of dyslexia
- Legislation and legislative support
- Symptoms of dyslexia – its manifestations in school environment
- Emotional and behavioral problems as a consequence of learning difficulties
- Methods of intervention in the activity with dyslexic students that can be used by staff who are not therapists specialized in this disorder
